React Native / React / TypeScript Developer

React and React Native developer with fullstack product experience, strongest in TypeScript, mobile/web product flows, e-commerce frontends and backend collaboration. I bring hands-on React Native/Expo work from CleanStrategy, enterprise React/TypeScript delivery from The Royal Mint, and broader API/authorization ownership from Swarmcheck.

SKILLS

Best match	React Native / Expo / TypeScript / React.js / Product development / Remote collaboration
Frontend	Next.js / JavaScript / HTML5 / Tailwind CSS / Bootstrap / Design-to-code
Backend and delivery	Node.js / Nest.js / Express.js / MongoDB / REST APIs / Azure

EXPERIENCE

Frontend Web Developer - NoA Ignite Poland

Jul 2024 - present

Enterprise e-commerce frontend work for The Royal Mint

- Developed and maintained React and TypeScript frontend features in a legacy enterprise e-commerce codebase.
- Debugged, optimized and modernized UI code while keeping existing commercial flows stable.
- Supported Google Analytics work and frontend improvements for product and purchase experiences.

Tech: React / TypeScript / Bootstrap / Azure / Auth0 / Google Analytics / E-commerce

Fullstack Developer - Swarmcheck

Jun 2021 - Jul 2024

Structured argumentation, fact-checking and data workflows

- Implemented a custom RBAC authorization system and backend endpoints for controlled data workflows.
- Built React interfaces and D3.js graph visualizations for exploring relationships between arguments.
- Worked across frontend and backend responsibilities in a product with data, access and collaboration concerns.

Tech: React / Node.js / Express.js / D3.js / Azure / RBAC

Instructor - Will Code Academy

Oct 2023 - Aug 2025

Programming education and mentoring

- Led practical programming lessons and mentored beginner developers.
- Designed teaching methods that simplify difficult programming concepts.

Tech: React / JavaScript / HTML5 / Mentoring

SELECTED PROJECTS

CleanStrategy

Jan 2024 - present

Mobile/web product for household task planning

- Designed and developed a React Native / Expo product with task flows, schedules and household responsibility logic.
- Built the supporting Nest.js and MongoDB backend so mobile and web clients can evolve in parallel.
- Owned product logic and key user paths, with a focus on fast iteration and practical everyday usage.

Tech: React Native / Expo / TypeScript / React / Nest.js / MongoDB

Moment Studio

Jan 2024

Full e-commerce implementation

- Built the frontend, Nest.js backend, MongoDB product model, Stripe payments and transactional email flow.
- Translated brand direction into responsive, product-focused commerce interfaces.

Tech: React / Nest.js / MongoDB / Stripe / Resend / Tailwind CSS

Jambo

Apr 2021 - Aug 2021

E-commerce frontend from Figma designs

- Translated Figma designs into responsive React/Next.js commerce views.
- Prepared project materials and requirements for visual implementation work.

Tech: Next.js / React / JavaScript / HTML5 / Tailwind CSS / Figma
